

AI does not attend rooms. It only sees evidence.

Your clients earned trust the slow way, in referrals and boardrooms. None of it is legible to the AI now assembling shortlists before anyone picks up the phone. Angela calls what happens next digital erasure. **Not ranked lower. Not there at all.**

Don't take my word for it.

See what AI says about you in two minutes: CanAIRecommendYou.com

SIGNATURE TALKS

- 01 Is AI erasing your neighborhood?** The TEDx Editor's Pick keynote. Erasure is not bias. It is absence.
- 02 You Already Have an AI Strategy. You Just Didn't Choose It.** Board-ready. Shadow AI, guardrails, and trust.
- 03 Can AI Recommend You?** Interactive. The room sees what AI says about them, live.

CLIENT OUTCOME, EXECUTIVE VISIBILITY REBUILD

40 to 83

Visibility score, Low-Signal to Magnetic, on the same instrument

217

Profile views in 90 days, about half her entire prior year (473)

3

Unsolicited executive-level opportunities in the same window

A 25-year biopharma executive, after a LiveWire visibility rebuild.

WHAT THE ROOM LEAVES ABLE TO DO

Name the risk

Ask better questions

Prioritize evidence

Lead responsibly

"Her ability to demystify AI and apply it practically to my business has been truly transformative."

Dr. Charmain Jackman, Founder and CEO, InnoPsych

Angela Pitter

The AI visibility advisor
